# The First Cry

Every woman's sym-pathy responds to the swestness of a baby's voice. The little cry that echees with the arrival of the new baby is perhaps the fondest and most cher-ished recollection of ished recollection of our lives.
Thousands of mothers owe their preservation to health and

strength to the wonderful preparation "Mother's Friend". This is an external application which is applied to the abdominal muscles. It relieves the tension, dominal muscles. It relieves the tension, prevents tenderness and pain at the crisis and enables the abdomen to expand gently. The muscles contract naturally after baby arrives and the form is thus preserved. It should be applied daily, night and morning, during the period of expectation. Its influence on the fine network of nerves and ligaments just beneath the skin is morning. neath the skin is wonderful. HOLD OF CAMPAIGN Women of the city have, in the past few days, taken hold of the campaign in vigorous fashion, and through the department stores, where pledge-card booths have been established, are obtaining many signatures.

Virginia has been called upon to supply a total of 200,000 signatures, including those obtained in the first supply total of 200,000 signatures, including those obtained in the first campaign, when 105,000 were secured. Reports so far from all parts of the State indicate that about 13,000 additional cards have been signed, so that the Old Deminion is still considerably behind in its allotment.

However, Mr. Montgomery last night expressed considerable optimism over the results being obtained in the campaign's closing days, and expects the showing of to-day and to-morrow to wipe out the deficit now seen in the number of signed cards.

Mr. Montgomery received a telegram last night stating that Norfolk housewives have signed 3,000 cards in addition to the 5,000 registered in the first campaign, bringing that city within 2,000 of its goal of 14,000.

War Declared on Rats by U. S. Gov't

The government at Washington is preparing a campaign that should be effective in killing the rats that are so destructive both to lives and property. A conservative estimate places the loss of foodstuffs from rats at over two hundred million dollars annually, and in the present scarcity of food, this loss must be prevented. The most efficient way to "Kill the Rat" is by the use of Stearns' Paste, and thousands of dollars' worth have been bought by the government. Every housekeeper troubled with rats, mice, roaches or waterbugs should buy a small box of this reliable exterminator and stop further loss of food in her home.—Adv.
